INTRODUCTION

Before using the light, please read this manual and the attached “NiMH Batteries” thoroughly, and keep them for future reference.

FOR SAFE OPERATION

- Do not place it within children’s reach.
- In preparation for unexpected battery shut off, we recommend you carry a spare battery.
- If the light unit or parts become dirty with mud, etc., clean with a soft cloth which is moistened with mild soap. Never apply paint thinner, benzine or alcohol; damage will result.
- Mount the light unit more than 10 cm away from the wireless meter. When it is mounted too close, the transmission may be affected adversely.
- This product has waterproof features that allow you to use it in light rain. Do not use it in heavy rain.
- Operate the switch after you stop your bicycle.

Before Initial Use

The rechargeable battery supplied is charged enough to check the light. Be sure to install it to the light and charge it before use, according to the instructions “How to charge.”

COMPONENTS

- Light unit
- FlexTight™ bracket (H-34N)
- Rechargeable battery x 2
- Battery charger (Various forms according to the specifications)

HOW TO INSTALL BATTERY

In place of rechargeable batteries, AA batteries can be used for this light.

1. Slide the cover backward, while pressing down the dot section on the top of the unit.
2. Replace batteries according to the marks on the unit, and replace the cover.

CAUTION!!:

- Do not use a dry battery (primary battery) together with a rechargeable battery.
- Do not use a new battery in combination with an old battery.
- Be sure to install batteries in the correct direction.
- Remove and store batteries when you will not use the light for a long period of time. Otherwise, batteries may leak liquid, which may result in failure.

HOW TO MOUNT

1. Wind the bracket strap around the handlebar, and put the strap through the opening.
2. Screw the dial into the bracket to secure it temporarily.
3. Insert the light unit to the bracket until it clicks, and adjust the beam angle. (Refer to “HOW TO MOUNT THE LIGHT”)
4. Securely tighten the dial, and cut off any excess bracket strap.
5. To remove the light unit, pull it forward while pressing the button.
6. To re-adjust the beam angle, loosen the dial enough to move the bracket, and securely tighten it after adjustment.

CAUTION!!:

- Be sure to tighten the dial by hand. When you tighten it too hard with a tool, the screw thread may be stripped.
- To remove the dial and screw (*1) on the bracket periodically, and use them without any loosening.
- Round off the cut edge of the bracket strap to prevent injury.

HOW TO USE

1. Lighting (switching the lighting mode)

The ON/OFF and lighting modes are selected using a switch.

<table>
<thead>
<tr>
<th>Switch</th>
<th>Standard continuous lighting time</th>
</tr>
</thead>
<tbody>
<tr>
<td>ON</td>
<td>High : Approx. 9 hours</td>
</tr>
<tr>
<td>Hi</td>
<td>Low : Approx. 20 hours</td>
</tr>
<tr>
<td>Flash</td>
<td>Quick double press</td>
</tr>
</tbody>
</table>

*2 When returning from Flash to ON (Hi or Low), it returns to the ON mode used previously.

2. How to charge

DANGER!!:

- Do not to charge when dry batteries are installed.
- Be sure to use CatEye rechargeable battery and battery charger. The battery charger is indoor use only.
- Commercially available rechargeable batteries should be charged with a compatible battery charger.

1. Open the charge jack cover at the back of the light unit to connect the battery charger plug.
2. Plug the battery charger to an AC outlet.
3. When the switch (indicator) lights up, charging starts.
4. * When the switch flashes, it indicates a charge error. Disconnect the plug, and reconnect it.
5. When the switch lights off, charging is completed.
6. Remove the plug, and close the charge jack cover.

Spare Parts

- Battery charger...CHA-2.2AH-2.4V (Only the rechargeable batteries supplied can be used.)
- Battery............AA Ni-MH 2.2Ah (GP220AAH) rechargeable battery x 2, or AA alkaline battery x 2
- Temperature range...Charging : 41˚F – 104˚F (5˚C – 40˚C)
- Specifications...Ni-MH Batteries

Clearance: 3/16” (5mm)
Height: 3/8” (10mm)
Width: 1/2” (13mm)
Weight: 2.2 oz (62.5g)
Recharge/discharge number of times ...About 300 times (until the rated capacity drops to 50%)

SPECIFICATIONS

Light source..............2 blue LED’s
Battery.................AA Ni-MH 2.2Ah (GP220AAH) rechargeable battery x 2, or AA alkaline battery x 2
Battery charger............CHA-2.2AH-2.4V (Only the rechargeable batteries supplied can be used.)
