1 HOW TO CHARGE

1. Connect the light unit to your PC or a commercial USB battery charger using the USB cable. (Fig 1 1 – 2)
   - The switch or the indicator on the cradle lights up, and charging starts.
   - Indicator light: On  Charging
   - Indicator light: Off  Charging is completed

   * When your PC is in sleep state, the unit cannot be charged.
   * We recommend using 500+ mA (USB 2.0) USB battery charger.

2. After charging is completed, remove the USB cable, and install the charge jack cover.

   * Charging and lighting times are approximate values, and will vary by environmental and user conditions.
   * The cartridge battery can be fast-charged by using the optional charging cradle (about 3 hours of charging time). Use a 1A or higher USB charging adapter when charging by the cradle.

2 HOW TO MOUNT

1. Mount the bracket to the handlebar. (Fig 2 1 – 2)
2. Insert the light unit into the bracket until it clicks, and adjust the beam angle. (Fig 2 3)
3. To remove the light unit, pull it out forward while pressing down on the release button (Fig 2 4).
   - To re-adjust the beam angle, loosen the dial enough to move the bracket, and firmly tighten it after adjustment.
   - The light can be mounted under the handlebar.

   * Be sure to tighten the dial by hand. When you tighten it too hard with a tool, the screw thread may be stripped.
   * Check the dial and screw (*1) on the bracket periodically, and use them without any loosening.
   * Round off the cut edge of the bracket strap to prevent injury.
### 3 SWITCH OPERATION (SWITCHING THE LIGHTING MODE)

The ON/OFF and lighting modes are selected using a switch.

*2 When you turn the light on, it lights up in the last lighting mode you used. (Mode memory function)

### CAUTION!
- When the operating time decreases significantly, the battery life is close to an end. Replace the cartridge battery with a new one.
- When you store the cartridge battery alone, be sure to install the cap. Otherwise, damage or a fire may be caused by short circuit.

### LIMITED WARRANTY

2-year Warranty: Light unit only

CatEye products are warranted to be free of defects from materials and workmanship for a period of 2 years from original purchase. If the product fails to work during normal use, CatEye will repair or replace the defective product at no charge. Service must be performed by CatEye or an authorized retailer. To return the product, pack it carefully and enclose the warranty certificate (proof of purchase) with instructions for repair. Please write or type your name and address clearly on the warranty certificate. Insurance, handling and transportation charges to CatEye shall be borne by the person desiring service. For UK and REPUBLIC OF IRELAND consumers, please return the product to the place of purchase. This does not affect your statutory rights.

Please register your CatEye product on the website:

### SPARE/OPTIONAL PARTS

- 5338827N FlexTight™ bracket
- 5341831N Helmet mount
- 5342730 USB cable
- 5342720 Fast charging cradle (USB cable attached)
- Cartridge battery (Li-ion 3.6v 2200mAh : BA-2.2)
  - 5342710 Black
  - 5342711 White
  - 5342712 Silver

### Standard charging time

Approx. 6 hours (USB2.0)

### Temperature range

Charging : 41°F – 104°F (5°C – 40°C)

Operating : 14°F – 104°F (-10°C – 40°C)

### Recharge/discharge number of times

About 300 times (until the rated capacity drops to 70%)

### Dimensions/weight

- 4-25/64” x 1-7/32” x 1-1/2”
  - (111.5 x 31 x 38 mm)
  - 4.2 oz (120 g)
