1. Connect the light unit to your PC or a commercial USB battery charger using the USB cable. (Fig 1① – ③) The switch indicator turns on and charging starts.
   * If using a cradle (optional), the indicator on the cradle turns on.

   - **Indicator light**
     - **On**: Charging (500 mA charging)
     - **Flashing slowly**: Charging (1 A charging)
     - **Off**: Charging is completed

   * When your PC is in sleep state, the unit cannot be charged.

   - Use a USB battery charger of 500mAh (USB2.0) or more.
   - The cartridge can be fast-charged with high capacity USB battery charger.
   - If the indicator flashes rapidly, there is a charging error. Remove the cable and try again.

2. After charging is completed, remove the USB cable, and install the charge jack cover.
   * Charging and lighting times are approximate values, and will vary by environmental and user conditions.
   * The optional cradle2 not only lets you charge the battery by itself, but also gives you the option of using it as a mobile battery.

1. Mount the bracket to the handlebar. (Fig 2① – ③)
2. Insert the light unit into the bracket until it clicks, and adjust the beam angle. ④
3. To remove the light unit, pull it forward while pressing down on the release button ⑤.
   - To re-adjust the beam angle, loosen the dial enough to move the bracket, and firmly tighten it after adjustment.
   - The light can be mounted under the handlebar.

   **CAUTION!**
   - Before your trip, please make sure the light is firmly mounted to the bracket, it lights up, and the light is not blocked by baggage, etc.
   - Do not place it within children’s reach.
   - In preparation for unexpected battery shutoff, we recommend you carry a spare cartridge battery and light.
   - Mounting the light unit too close to a wireless computer may adversely affect the reading of the computer.
   - This product is water-resistant under normal daily use and can be used in the rain. However, do not intentionally submerge it in water.

   - If the light unit or parts become dirty with mud, etc., clean with a soft cloth which is moistened with mild soap. Never apply paint thinner, benzine or alcohol; damage will result.
   - Dispose of used cartridge batteries appropriately according to local regulations.

   **Before Initial Use**
   This unit is shipped with a small charge to check the light. Be sure to charge it before use, according to the instructions “HOW TO CHARGE.”
3 SWITCH OPERATION (SWITCHING THE LIGHTING MODE)

The ON/OFF and lighting modes are selected using a switch.

*2 When you turn the light on, it lights up in the last lighting mode you used. (Mode memory function)

4 HOW TO REPLACE THE CARTRIDGE BATTERY

Turn the cartridge battery counterclockwise to remove from the unit. To install, screw the cartridge battery into the light unit until it clicks.

**CAUTION!**
- When the operating time decreases significantly, the battery life is close to an end. Replace the cartridge battery with a new one.
- When you store the cartridge battery alone, be sure to install the cap. Otherwise, damage or a fire may be caused by short circuit.

**LIMITED WARRANTY**

2-year Warranty: Light unit only
(Deterioration of the cartridge battery is out of warranty)

CatEye products are warranted to be free of defects from materials and workmanship for a period of 2 years from original purchase. If the product fails to work during normal use, CatEye will repair or replace the defect at no charge. Service must be performed by CatEye or an authorized retailer. To return the product, pack it carefully and enclose the warranty certificate (proof of purchase) with instruction for repair. Please write or type your name and address clearly on the warranty certificate. Insurance, handling and transportation charges to CatEye shall be borne by person desiring service. For UK and REPUBLIC OF IRELAND consumers, please return to the place of purchase. This does not affect your statutory rights.
