READ ALL INSTRUCTIONS BEFORE FIRST USE

Thank you for purchasing the CAT EYE DayLite II rechargeable head lamp. Before first use, thoroughly familiarize yourself with this manual so that you understand the lamp’s safe and correct operation. Please keep this manual for future reference.

NAMES

Please make sure that all the following parts are in the package.

* The package for Solo includes each set of lamp unit/Spot Bulb, bracket, rubber pad; and the cord of the remote switch is single (not tubed).

FOR SAFE OPERATION (IMPORTANT)

• Never short-circuit the terminal of the battery and the plug of the battery charger. It may cause the battery to overheat, resulting in fire or damage of the components.

• Securely connect the plug so that the light will not turn off while riding, or the cord will not hinder riding.

• If the cord of the battery charger, the battery cord or battery unit is damaged, it must only be replaced by the shop where this lamp kit was purchased, because special purpose tools are required.

• The lamp unit becomes hot when turned on. Never touch the lamp unit or lens until thoroughly cooled. Injury may result.

• Use only the included battery charger for charging.

• Safely and properly dispose of the old battery according to your local regulations when it becomes to the end of its useful life.

• This lamp kit is not intended for use by young children or infirm persons without supervision; young children should be supervised to ensure that they do not play with this appliance.

• Take precautions against a sudden battery run-out. Carry a spare light or spare batteries.

BEFORE FIRST USE:

Before first use, charge the battery fully following the instructions on [HOW TO CHARGE]. Before every use, charge the battery fully following the instructions on [HOW TO CHARGE].

When the battery kit is not in use for a long period, the lamp’s operation time will be shortened due to a sudden battery run-out.

Before every use, charge the battery fully following the instructions on [HOW TO CHARGE].

Charger: CAT EYE Battery Charger AD-1250

Charging Time: 8 to 10 hours

Operation Time: Spot-Beam: approx. 3 hours 5W(Dark): approx. 2 hours 6W(LOW): approx. 2 hours

Charging: 0°C - 30°C

Diagrams and design are subject to change without notice.

HOW TO ATTACH THE BRACKET

[Use two brackets for Twin.]

1. Attach the bracket (H-30) to the handlebar using the appropriate rubber pads provided.

2. Turn the quick lever (keeping it upright). Fix the bracket securely by pulling up the lever. To loosen the bracket, pull down the quick lever. Before use, adjust the angle of the beam and the position of the lamp unit, according to the instruction of “How to Adjust Angle of Beam” in “HOW TO USE”.

HOW TO ATTACH THE REMOTE SWITCH

Attach the remote switch onto the handlebar where it will not hinder the braking and shifting operation. Attach the remote switch using the appropriate rubber pads provided.

Note: To remove the remote switch, slide it to the left while pushing the lever.

HOW TO MOUNT

Before connecting the cords, mount the battery unit and lamp unit onto the right places.

Installing the Battery Unit

Insert the battery unit into your bottle cage. Secure it with the battery belts.

Note: The battery unit may not fit all kinds of bottle cages.

Mounting the Lamp Unit

Warning! Never touch the lamp body until it is thoroughly cooled. You may get burnt.

• To mount the lamp body, slide it backward onto the bracket unit while it clicks into position.

• To remove the lamp body, slide it forward while pushing the lever.

HOW TO CHARGE

1. Use the power provided battery charger. The charger is only for indoor use.

2. Connect the plug of the battery unit with the battery charger (AD-1250). Plug the battery charger with the home power outlet.

Standard charging time is 8 to 10 hours. (Depending on the capacity of the battery, the charging time will vary.) Be careful not to charge it for more than 10 hours. Overcharge will damage the battery.

Note: The charging time and the operation time may vary depending on the use environment.

LIMITED WARRANTY

2-Year Warranty

Only Lamp/Remote switch and Battery Charger (Excluding bulb and battery)

If trouble or damage occurs during normal use, the product will be repaired or replaced free of charge. Type your name, address, date of purchase and the situation of trouble clearly, and send it to the appropriate service center together with the purchase receipt, insurance, handling and transportation charges shall be borne by the customer. After being repaired or replaced, the product will be shipped back to the customer.
